## Sudo-ku

Energieeffektivgruppen

November 22, 2016

The Task

Binarized Neural Network

The Operation of Sudo-ku

Data flow and memory

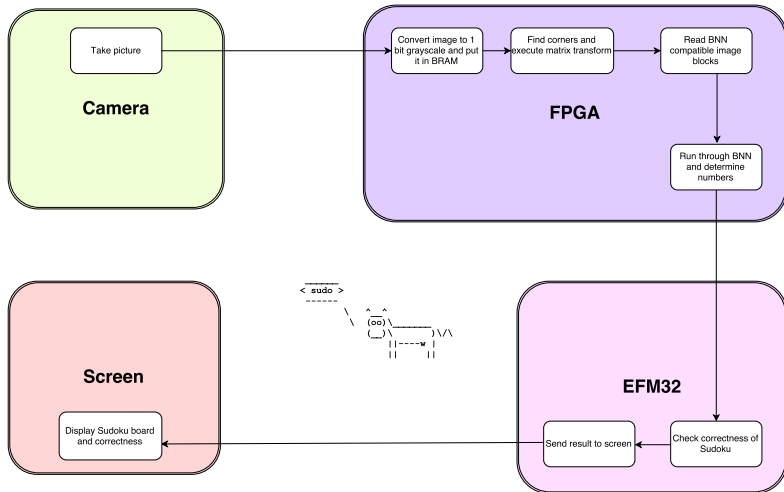

PCB Design

# The task

- ▶ Construct a computer that makes use of binarized neural network deployed on an FPGA
- ▶ The BNN should recognize digits
- ▶ Computer must be battery powered
- ▶ Maximize battery life
- ▶ Sudoku solver that displays the board and correctness

# The Operation of Sudo-ku

# The operation of sudo-ku

Image restraints

- ▶ White Sudoku board on black background
- ▶ Not rotated more than 45 degrees in any direction

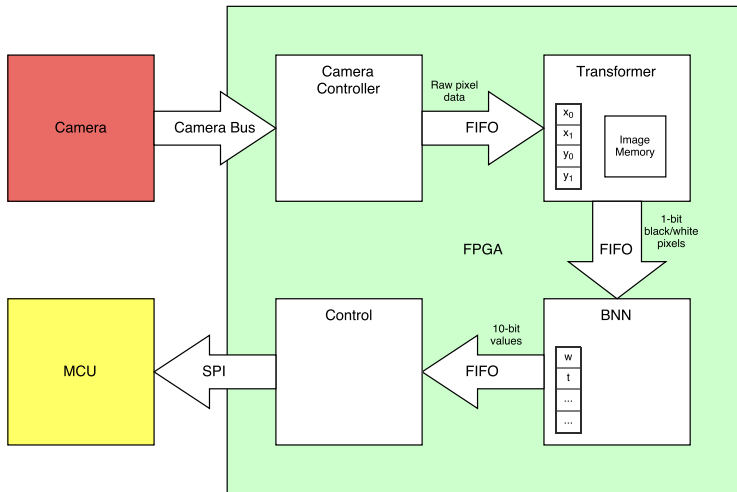

8	3	5	4	1	6	9	2	7
2	9	6	8	5	7	4	3	1
4	1	7	2	9	3	6	5	8
5	6	9	1	3	4	7	8	2
1	2	3	6	7	8	5	4	9
7	4	8	5	2	9	1	6	3
6	5	2	7	8	1	3	9	4
9	8	1	3	4	5	2	7	6
3	7	4	9	6	2	8	1	5

# Data flow and memory

On the FPGA

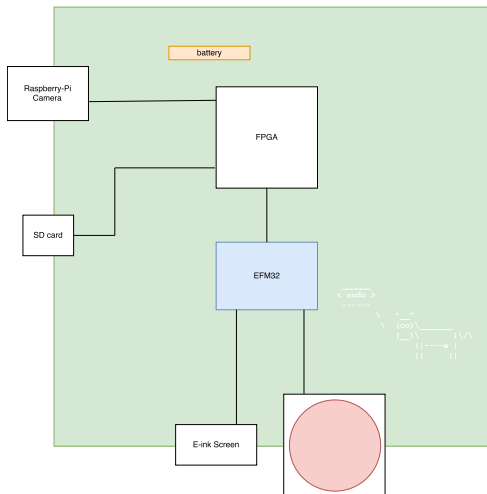

5

# Data flow and memory

In the Transformer-module

	Idle	Load
Estimated	0,36W	0,48W
Measured	0,77W	0,81W
